

I'm **too late** I see. Damn you Albert! We could have persuaded Dantis to talk. To tell us who the mole is in our organisation!*

I doubt it Fred. Dantis would **never** have told you.

This was our chance to **deliver justice** after all the people he killed. Mason in Cairo and others. The law wouldn't have caught him.

That's not justice! You and George just **murdered** him!

Hardly. I did warn him, to **give up smoking**, that it was bad for his health. How was I to know his boat was full of petrol?

Unfortunate for him. But you knew that he had **lost his sense of smell**. My briefing notes I read on my way here, told me someone had accessed Dantis's file. Nothing you would know about naturally.

* An ongoing investigation since The Great War. Various efforts have been made over the years to identify the mole, but with no success so far. Editor.
