

The searchers are out in force on Icehead — and John Peters and Captain Wade are their quarry.

SECRET WAR OF THE SLUG

The Slug, a secret underwater craft crewed by John Peters, Captain Wade and Tommy Cook, had penetrated the defences of Icehead, an Eastbloc base housing an energy beam able to bring down aircraft in flight. Leaving Peters at a hidden anchorage, Wade and Cook had broken in to the base, only to be discovered. Wade managed to escape, believing Tommy Cook was dead — but he'd been taken alive.
